

Product Catalog & Introduction of BX Panel

BX Electronic Technology Co., LTD, located in Xiamen Special economic Zone, starting in 2009, BX has sharpen his printing and die cutting skills for 15 years. Now, he has become one-stop service technology company that focuses on Solution / R&D / Production / Assembly. His products are Nameplate/Crystal Dome Label/Display Panel/Membrane Switch/Acrylic panel. Which are most important component in electronic consumer products, household appliances, industrial equipments, automobile displayer and smart bathroom products.

|------------------|-------------------|
| Membrane Switch | Dome Labels |
| Acrylic Panel | Sticker |
| Nameplate | Silicone Keypad |
| Graphic Overlays | Insulation Gasket |

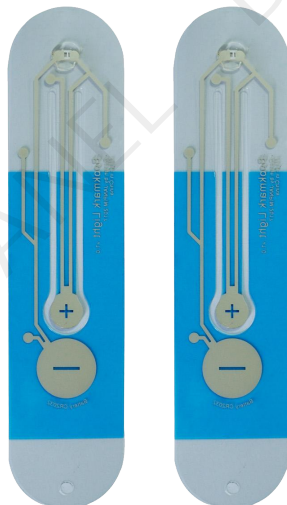

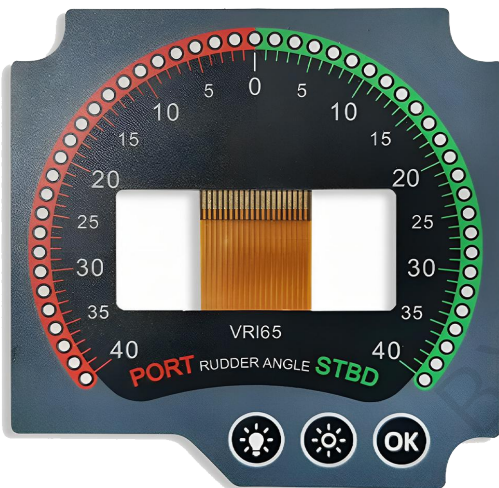

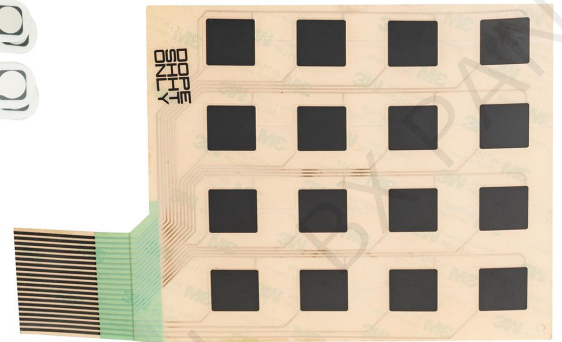

Membrane Switches

- ▶ Custom designed and constructed to meet your project specifications
- ▶ Sealed construction is resistant to moisture and contaminants and is easily cleaned
- ▶ Low cost, especially when compared to bulky, costly electromechanical switch assemblies

Used for	Industrial, Electronics, Medical, Measurement
Function	Durable, Waterproof, Dustproof, UV Resistant
Basic Material	Polyester, Polycarbonate, PVC, etc.
Color	Pantone, Ral, Cmyk
Adhesive	3m, Nitto, Sony

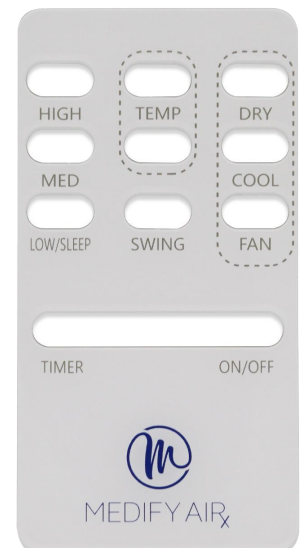

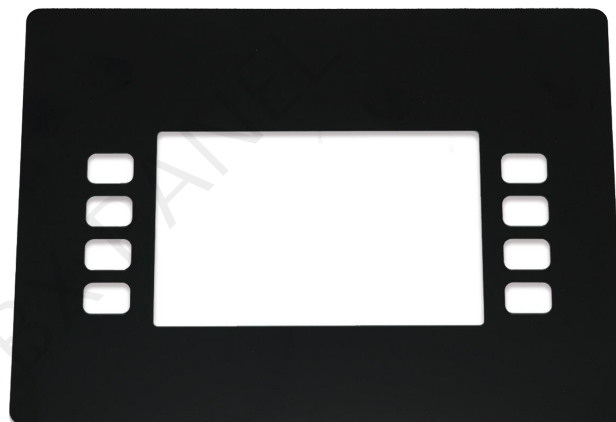

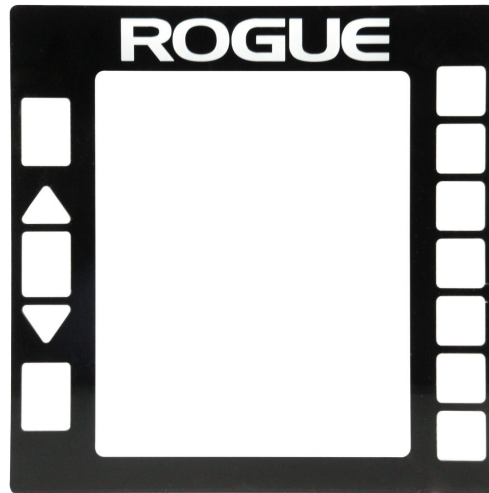

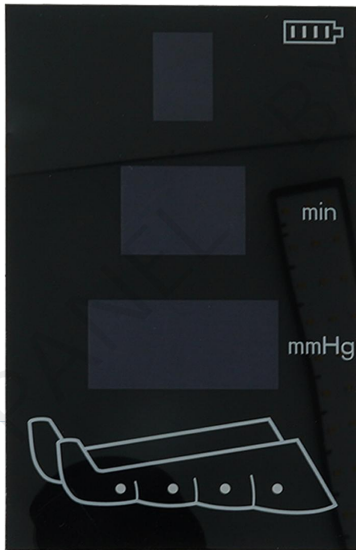

Acrylic Panel

- ▶ Custom designed and constructed to meet your project specifications
- ▶ Sealed construction is resistant to moisture and contaminants and is easily cleaned
- ▶ Low cost, especially when compared to bulky, costly electromechanical switch assemblies

Used for	Home Appliance, Industry, Electronics, Medical
Function	Water/Dust/Oil Proof, UV/Chemical Resistant
Basic Material	Acrylic PMMA Glass
Color	Pantone, Ral, Cmyk
Adhesive	3m, Nitto, Sony

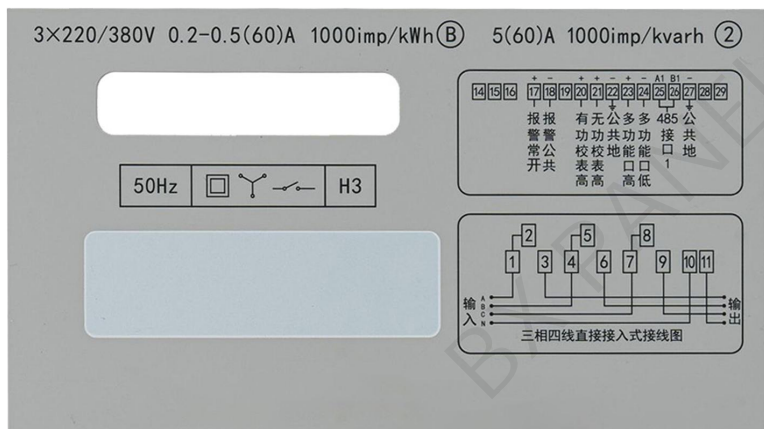

Nameplate

- ▶ Custom designed and constructed to meet your project specifications
- ▶ Sealed construction is resistant to moisture and contaminants and is easily cleaned
- ▶ Low cost, especially when compared to bulky, costly electromechanical switch assemblies

Used for	Displaying important information such as names, logos, titles, instructions, or product details
Function	Dustproof, Anti-UV, Eco-Friendly, Fancy Appearance
Basic Material	Metal, Aluminum, Anodized Aluminum, Stainless Steel, Copper, Nickel and Zinc Alloy, etc
Color	Pantone, Ral, Cmyk
Adhesive	3m, Nitto, Sony, Soken, Crown

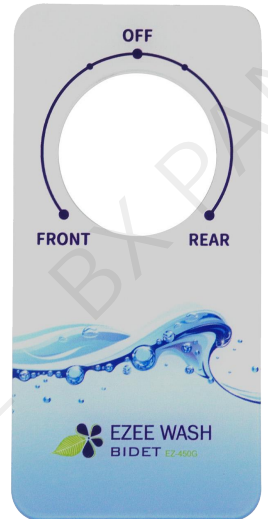

INSPIRE

Graphic Overlay

- ▶ Custom designed and constructed to meet your project specifications
- ▶ Sealed construction is resistant to moisture and contaminants and is easily cleaned
- ▶ Low cost, especially when compared to bulky, costly electromechanical switch assemblies

Used for	Electronics, Automotive, Medical, Aerospace, Industrial manufacturing
Function	Waterproof, Dustproof, UV Resistant
Basic Material	PET / PC / PVC
Color	Pantone, Ral, Cmyk
Adhesive	3m, Nitto, Sony

Dome Label

- ▶ Custom designed and constructed to meet your project specifications
- ▶ Sealed construction is resistant to moisture and contaminants and is easily cleaned
- ▶ Low cost, especially when compared to bulky, costly electromechanical switch assemblies

Used for	Packaging material, Household commodity abels, Electroic labels, Branding promotion labels, Product identification signage, Waring signs, Function identification labels, etc
Function	Enclosed, Waterproof, Dust-proof, Moisture-proof, Light-weight, Small volume, Versatile design, Environmental friendly
Material Overlay Material	Paper, PP Synthetic Paper, PC, Polyester, Polyurethane, etc Epoxy, Resin, PU
Color	Pantone, Ral, Cmyk
Adhesive	Self Adhesive, 3m, Nitto, Sony

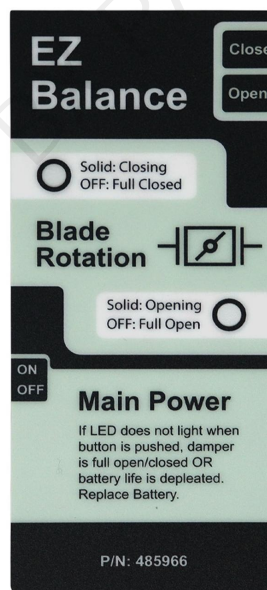

Sticker

- ▶ Custom designed and constructed to meet your project specifications
- ▶ Sealed construction is resistant to moisture and contaminants and is easily cleaned
- ▶ Low cost, especially when compared to bulky, costly electromechanical switch assemblies

Used for	Commodities, Cosmetics, Electronics, Medical Treatment, Food, Shipping, Pesticides, Equipments, etc
Function	Waterproof, Durable, Tear Proof, Oil Proof, Heat Resistant, Antistatic, Eco-Friendly
Basic Material	Paper, Synthetic Paper, PET, PVC, PP, Vinyl, Mesh Fabric
Color	Pantone, Ral, Cmyk
Adhesive	Self Adhesive, 3m, Nitto, Sony

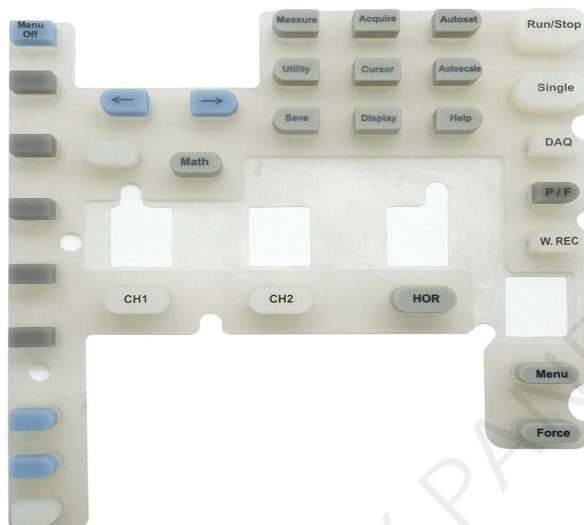

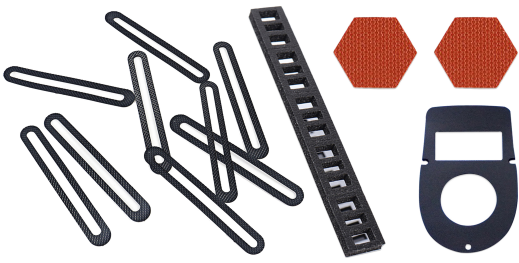

Silicone Keypad

- ▶ Custom designed and constructed to meet your project specifications
- ▶ Sealed construction is resistant to moisture and contaminants and is easily cleaned
- ▶ Low cost, especially when compared to bulky, costly electromechanical switch assemblies

Used for	Electronic calculators, Remote controls, Telephones, Wireless telephones, Electronic toys, Computer keyboards, Learning machine keypad, etc
Function	Excellent heat resistance, Cold resistance, Environmental resistance, Electrical insulation, Fatigue resistance and other Characteristics
Basic Material	Silicone, Rubber
Color	Pantone, Ral, Cmyk
Touch	Soft and Gentle

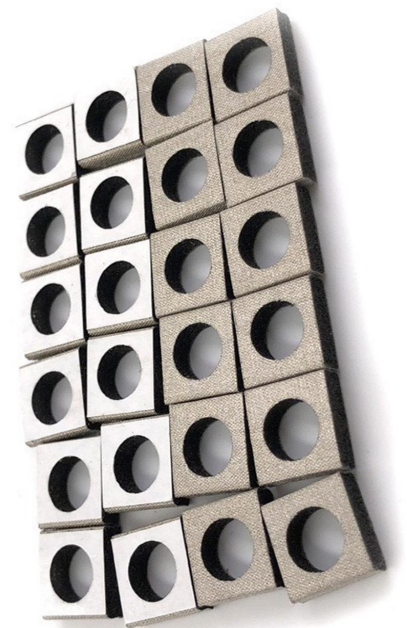

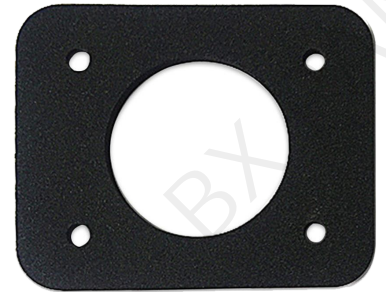

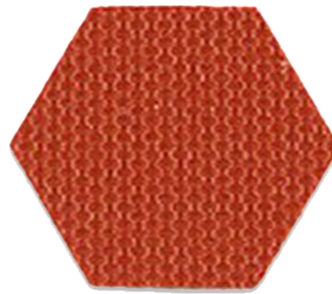

Insulation Gasket

- ▶ Custom designed and constructed to meet your project specifications
- ▶ Sealed construction is resistant to moisture and contaminants and is easily cleaned
- ▶ Low cost, especially when compared to bulky, costly electromechanical switch assemblies

Used for	Automotive, Electronics inter, HVAC (Heating, Ventilation, and Air Conditioning), Appliances, Construction
Function	Vibration/Sound/Heat Isolation, Flame/Water Proof
Basic Material	Rubber, Silicone, Neoprene Foam, EPDM, Polyurethane Foam, EPDM, Asbestos Fiber, Plastic(PVC, PC, PET), Foamed Polypropylene, Polyurethane, Polyamide, Metal(Copper Foil, Aluminum Foil, Golf Foil), Graphene
Color	Grey, Black, White
Size and Stiffness	Custom any size based on your usage

The BX Panel :

BX Panel can provide a complete solution for every aspect of user interaction with the device.

From control interfaces to labels that identify, track, warn, and indicate. For 15 years in terms of experience, we have the expertise and ability to create a customized interface or logo solution for any application.

We leverage our extensive application engineering experience to produce highly tolerant, feature-rich users.

Interface components that can operate in the most challenging environments. The BX Panel is ISO 9001 certified

Through certification, this certification applies to design, manufacturing, and most importantly, customer focus.

Our expertise is in tagging critical assets in demanding environments such as defense, aerospace, transportation, energy and healthcare.

Contact us for more information, or visit the official website to see all of our products and capabilities.

LOCATED AT

5th floor, Building 96,
HuLiPark, Xiamen, China.
